

Supply List for Free Motion Machine Quilting with Linda Lasco

Hello, Belknap Quilters.

Here's what you'll need for the workshop.

- Basic sewing supplies and a sewing machine in good working order that you're comfortable working with. Clean and oil (as per your machine's instructions) before class. Don't forget the foot pedal and power cord!
- A free motion foot or darning foot – installed on the machine before class.
- An old machine needle (that you will dull as we start by stitching through paper) installed on your machine.
- A new needle, size 10 – 12, to use when we start on fabric. I recommend a Quilting or Jeans/Denim needle. (I use these interchangeably.)
- Make several quilt "sandwiches" with muslin or light solid fabrics and same-size pieces of lo-loft or cotton batting, pin- or spray-basted and ready to quilt. These sandwiches can be of any dimensions, no smaller than 10" – 12" across and no larger than about 18" – 22" (that is, no bigger than a fat quarter).
- Optional: Make at least one sandwich with a large-scale floral print.
- Machingers gloves or other grip improvers.
- Cotton thread and bobbin filled with a different color thread. Select the colors to *contrast* with your fabrics.

I'll have extra needles, sandwiches, and batting to use and Bernina and generic free-motion feet to borrow.

I'm looking forward to the workshop! Any questions, give me a call.
